

Outcome of the GENERA interview series

including the interview guidelines

Download the entire report as pdf

Summary of the report

Recommendations for Gender Equality Plans in physics

Introduction

Methods

1. Career paths of women and men physicists - new emerging pathways and new challenges
2. Work conditions and environment
3. Mobility, migration and internationalization of science
4. Networks
5. Mentorship - importance, forms and gender dimensions
6. Reasons for domination of men in physics and existing barriers to women's success
7. Physicists experiencing different treatment
8. Institutional aspects of gender equality in physics
