Interested to join GENERA Network?

GENERA Network is established on the basis of a Memorandum of Understanding (MoU).

The only commitment for member organizations in GENERA Network is to contribute to the annual data collection of aggregated gender data at the institutional level and, of course, help shaping focus and work of GENERA Network.

As a first starting point you may consult the GENERA Network MoU:

- organizations can become members of GENERA Network by signing the MoU,
- for interested organizations that are not able to sign the MoU the 'Friend of GENERA' status may be granted.

Please get in touch with the GENERA Network team at DESY: genera@desy.de to discuss the options for your institution.
