Title: **|Creating Futures in Science - workshop| |Implementation| | |Field(s) of Action:|**@#A9BCF5: * Presence and Visibility**| |Objectives:|*** Information about science careers in a new methodical way** *** Support for young female scientists** *** Career development** *** Network between researchers** *** Personal career planning and self-reflection|** |Target Group(s): **|PhD students, PhD candidates and research assistants** **Postdocs and mid-career scientific** **Female researchers on the early career stage|** |Description: |**The workshop "Creating Futures in science" was designed to help young women scientists successfully transition from a post-doc to a high level scientific career. The scenario women design for themselves encourages their self-confidence in career terms. A scenario-building workshop to answer the following questions was developed:** *** Which events and decisions influence scientific careers?** *** How do you get transparency in (German) research?** *** How can you spot factors that are relevant for careers with specific scenarios?** **The workshop takes 1,5 days and following activities are recommended:** *** Research evidence** *** Discussion with role models** *** Activities involving question and answer sessions with experts** *** Participants working in pairs on each other's CV and formulating one's own CV, presenting the CV afterwards** *** Session to reflect what was learnt and achieved|** |More information:**	IKMM/ Fraunhofer Fachgebiet Gender und Diversity in Organisationen (Germany) Website: https://www.gender-diversity.tu-berlin.de/gdo/projects/completed_projects/creating_futures_in_science/parameter/en/
