

Title:	Gender in science genSET - online platform
Implementation	
Field(s) of Action:	* Gender Dimension in Research and Education
Objectives:	* Improve science through inclusion of the gender dimension * Encourage dialogue between science and gender experts
Target Group(s):	Employees of companies and research institutes, scientists and innovators in science and technology
Description:	The online platform was created to support and advance the effectiveness of research and innovation in science through gender inclusion. Various researchers and scientists connect via genSet. This online platform offers material for workshops on gender related topics as well as examples of measures taken to include gender in science and research.
More information:	genSET platform does not exist anymore. Please have a look at https://www.genderportal.eu/
