

Title:	PRIMA
Implementation	
Field(s) of Action:	* Gender Dimension in Research and Education
Objectives:	Give a way in for senior female researchers aiming towards a professorship in Switzerland.
Target Group(s):	Female researchers looking for a professorship in Switzerland
Description:	<p>PRIMA is a source of funding for remarkable female researchers who are looking for a professorship in Switzerland. The beneficiaries of this funding will direct their own research project at a Swiss institution. They will conduct this project with complete autonomy and their own team.</p> <p>Candidates must have a PhD or an equivalent, in general consisting of at least three years of research after graduating from university or an official exam with value equivalent to a doctorate.</p> <p>They must then have two years' experience on top of their doctorate and apply for the program between two and ten years of receiving their doctorate.</p> <p>The duration of this funding is a maximum of five years to cover the salary of the beneficiary as well as the possibility of temporary work abroad and a network of mentors. This allows the researchers to strengthen their academic profile to be competitive professor candidates.</p> <p>It is planned to make up to 12 positions available per year.</p>
