

Title: ****|WiN Portal (Female scientists in the network)|**

|Implementation|

|Field(s) of Action:|@#A9BCF5: *

Presence and Visibility|

|Objectives:|* Dialogue/network between students and scientists

*** Establishing partnerships for work|**

|Target Group(s):|Students

(undergraduate and graduate)

PhD students, PhD candidates

and research assistants,

Postdocs and mid-career

scientific personnel,

Professors

Management and Leadership

Female students,

graduates/doctoral researchers,

postdoctoral researchers,

(junior) professors, leadership

positions|

|Description:|The

“Wissenschaftlerinnen im Netz”

(WiN) network at the University

of Münster was set up in May

2009 to provide a web-based

communication platform for all

women involved in research at

the university, whether students

or early career researchers.

This platform allows their

members to share knowledge

that is not publicly available as

well as their own personal

experiences of research. In

addition to the information

service, the WiN portal is

designed to allow female

researchers to communicate and

establish partnerships for work

on research issues. There is a

setup of five communities:

psychology, pedagogy, German

language and literature,

sociology and physics. Each

community is supervised by

researchers in the relevant field.

The WiN network was

established with funding from

the Frauenförderpreis 2007.|
