

"Gender Equality Matters  
whatever your Gender"

Trinity Centre for Gender Equality and  
Leadership (TCGEL)

"ESO and CERN, together with their  
EIROforum partner organizations, launched  
the initiative „[Young artist drawing  
challenge](#)“: each EIROforum organization  
has reached out to the children in the lives  
of their staff, challenging them to tap into  
their artistic creativity to provide a drawing  
to celebrate the theme of „Women in  
Science“. The complete ESO drawings  
gallery can be admired [here](#)."

CERN and ESO

"I tell women to never feel inferior  
and to proceed as I have always  
done: combative, self-confident and  
respectful of colleagues or  
opponents, but uncompromising on  
any underestimation of their work. "

-Margherita Hack-

CNR

"It took more than 60 years to  
have the first female director  
at DESY - come and let's  
improve gender equality in  
physics together!"

DESY

"You are valued  
and you are not alone."

University of Latvia

"In every women there is a queen  
A real woman is whatever the hell she  
wants to be.  
Girls can do anything.  
If you stand for equality you are a  
feminist.  
Gender equality for excellence in  
science"

WEIZMANN Institute

"CERN's popular annual celebration of  
[Women and Girls in Science](#) continues in  
2022. A number of Women in STEM  
professions will inspire young students  
with visits to local schools during the  
week of 7 to 11 February. Women  
scientists and engineers from CERN, EPFL,  
UNIGE, and LAPP form an impressive  
network of role models and, possibly,  
future colleagues to the next generation  
of women in science! For the adults, a  
screening of the feature film Picture A  
Scientist followed by a panel discussion  
will take place on 10 February at 8pm  
in the Globe at CERN. Registration and the  
live webcast to the panel is [here](#)."
